WHY BUY FROM NOXX?

Noxx Industries aims to make teachers' lives easier with products that help create spaces that are efficient, organised and safe. Find out how we can help you make accountability visible...

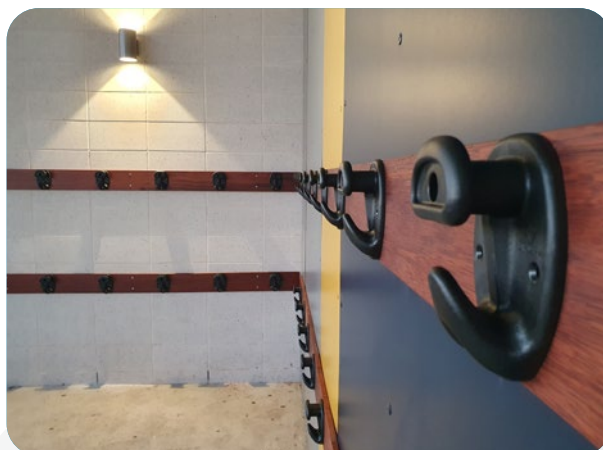

FOR EXAMPLE...

Noxx Industries received an enquiry to provide a solution to protect large flat screen monitors from being damaged by accidental knocks from student equipment. By working through the customers' request, we were able to provide framed screen protectors that satisfied our customers' requirements while allowing for easy removal when needed.

SAFE NOXX BAG HOOK INSTALLATION

Another project was to develop a safe, solid school bag hook (pictured) that is also easy to install.

This product is now available to order from our standard range.

SAFE NOXX BAG HOOK

The development of our safe Noxx Bag Hook was motivated by a personal experience. One of the children in my son's class injured themselves on a sharp steel hook, causing a serious penetration injury and sending her to hospital for over a week.

Noxx Industries set out to develop a bag hook that is safe, strong, vandal-resistant and suitable for the rigour of heavy high school bags.

Our design includes a smooth oval shape with no sharp edges and the double hooks are placed close together to help prevent any penetration injuries.

The bag hook is suitable for all schools indoor and outdoor and is rated to carry up to 150 kg. It is 100% Australian designed and made in 3 colours — black, blue and light grey. Coloured caps are available to separate different areas within the school (available in black, white, yellow, orange, red, purple, blue, charcoal, and light grey.)

Optional metal loop hooks are now also available.

NOXX BAG RACKS

Bag Racks can be custom made to suit your requirements. Standard sizes are 1200, 1600, 2000, 2400 wide x 2 tiers 800 high or 3 tiers 1300 high x 420 mm deep. Various colours are available on request.

NOXX PIGEONHOLE UNITS

Pigeonhole units come in standard sizes, with custom sizes made to order.

SIZE

6 hole unit: 1200 w x 900 h x 400 d

9 hole unit: 1200 w x 1200 h x 400 d

8 hole unit: 1500 w x 900 h x 400 d

12 hole unit: 1500 w x 1200 h x 400 d

STAFF LOCKERS & CABINETS MADE TO ORDER

New lockers can transform the look of any space used by both students and staff. The lockers are available in a variety of finishes and will keep your school more organised, tidy and workable, creating better workflow for all.

HEAVY DUTY WATERPROOF PLASTIC LOCKERS

The heavy-duty water resistant locker is the ultimate outdoor locker, designed with a sealed door and water strip.

Suitable for most conditions, the locker is water, UV and vandal resistant - perfect for outdoor conditions. Includes a provision for most common padlock sizes.

SIZE (each compartment)

Single door unit: 1800 h x 385 w x 500 d

Two door unit: 900 h x 385 w x 500 d

Three door unit: 600 h x 385 w x 500 d

Four door unit: 450 h x 385 w x 500 d

SEALED DOOR

The locker door fully covers the locker carcass, which effectively enhances the waterproof performance.

WATER STRIP

This waterproof locker is designed with a strip which capture water and allows it to drain.

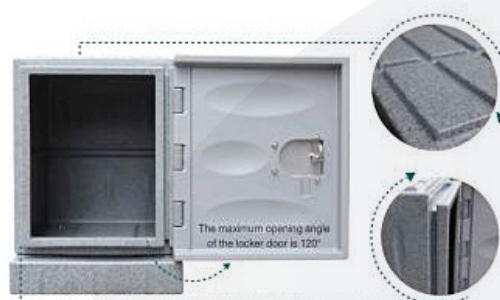

WATER STRIP DESIGN

The water strip prevents rain water from entering into the locker.

Schematic diagram with ground

M8* 70 expansion bolt could be used to attach the base to the ground (optional)

NOXX INDUSTRIAL BENCHES — 3 TYPES AVAILABLE

1. Basic TAS Work Bench with vice as pictured on page 7.

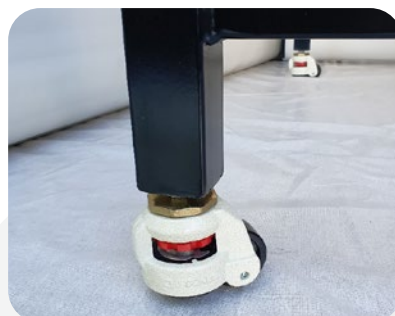

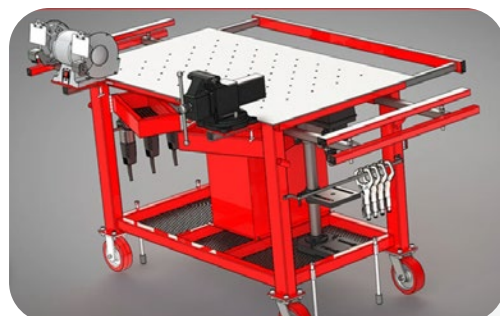

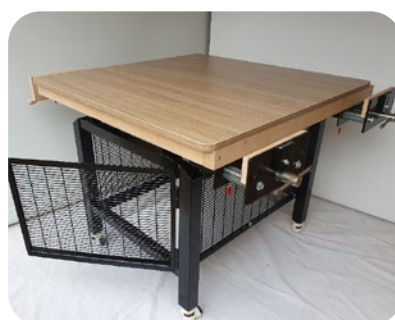

2. Standard TAS Work Bench with vice.

Solid Noxx Industrial Arts Benches come with a range of solid timber tops, with replaceable ply panels which can be easily replaced if damaged. This provides a cost-effective way to maintain the work bench tops to keep them in pristine condition. The students need a clean and efficient environment to respect while enhancing their education. A replaceable hardwood edge frame is bolted on. Standard Vices can be configured to your requirements.

The base is a structural steel powder coated frame and can be custom designed with either open seating space, a lockable storage cage, cabinetry with doors and drawers or even fitted with tool racks.

3. Deluxe Solid Noxx Work Bench with four quick release vices and storage cabinet or cage.

Noxx Industries has developed its own rugged Hard Noxx Metal / Woodwork Vice which allows for lateral adjustable vice repositioning for 2 styles of vices. This allows the student to reposition the vice anywhere along the length of the table, providing a flexible workspace.

NOXX TAS TABLE

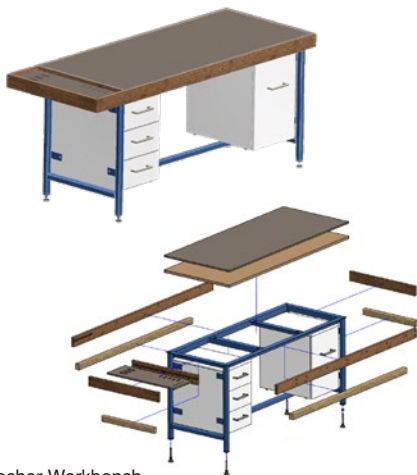

Noxx TAS Tables are available with a range of tabletop options including laminate, Corian or solid timber ply tops (with ply panels framed in solid timber, easily replaceable if damaged.)

The base is a steel powder coated frame and can be custom designed with either open seating space or even configured as teachers' desk with lockable doors and drawers.

Adjustable feet come standard. Optional extras include adjustable foot castors, cabinetry options and a variety of vice options which can be fitted.

TOOL BOARD ORGANISERS AND CABINETS

Organise your tools or lock them away, keeping them safe, tidy and secure.

PRODUCTS

NOXX INDUSTRIAL EQUIPMENT

INDUSTRIAL EQUIPMENT

WORK SHOP TABLE SAW WITH SAFETY FEATURES

1 Immediate Safety Stop Detection System

- The blade carries a small electrical signal.
- When skin contacts the blade, the signal detects this instantly as the body is conductive.
- The charge to the signal activates the safety system immediately.

2 Brake Activation

- An aluminium brake springs into the spinning blade, stopping it in less than 5 milliseconds!
- The blade's momentum forces it beneath the table, removing the risk of further contact and Power to the motor is shut off.

3 Resetting the saw yourself is easy.

Simply replace the blade and the affordable brake cartridge and your saw is operational again. The entire reset process takes less than five minutes.

DUST COLLECTOR UNIT

The standalone cyclone series is one of the most quiet and radical designs to ever hit the market. HEPA class canister filtration and many unique innovative features make these high-end cyclones the market leaders. A perfect choice for those looking to minimise workshop dust to the very lowest levels.

NOXX CART

These carts are ideal for schools and libraries, for easy transportation of books, files and supplies.

The Noxx Cart can be completely collapsed by the push of a button on the handle.

The wheels feature a quick-release mechanism and are stored compactly on the underside of the cart. The Noxx Cart has a combined max weight capacity of 75kg (25kg top shelf, 50kg bottom shelf).

A robust foot pedal brake allows the Noxx Cart to be locked in position whilst loading or unloading.

The Noxx Cart is supplied as standard with one collapsible basket, which locks into place during use.

Extra baskets and matching lids are available separately. A compatible tool bin (supplied with 2 removable dividers) is also available to order.
